

# Glycosaminoglycan degradation

all genes

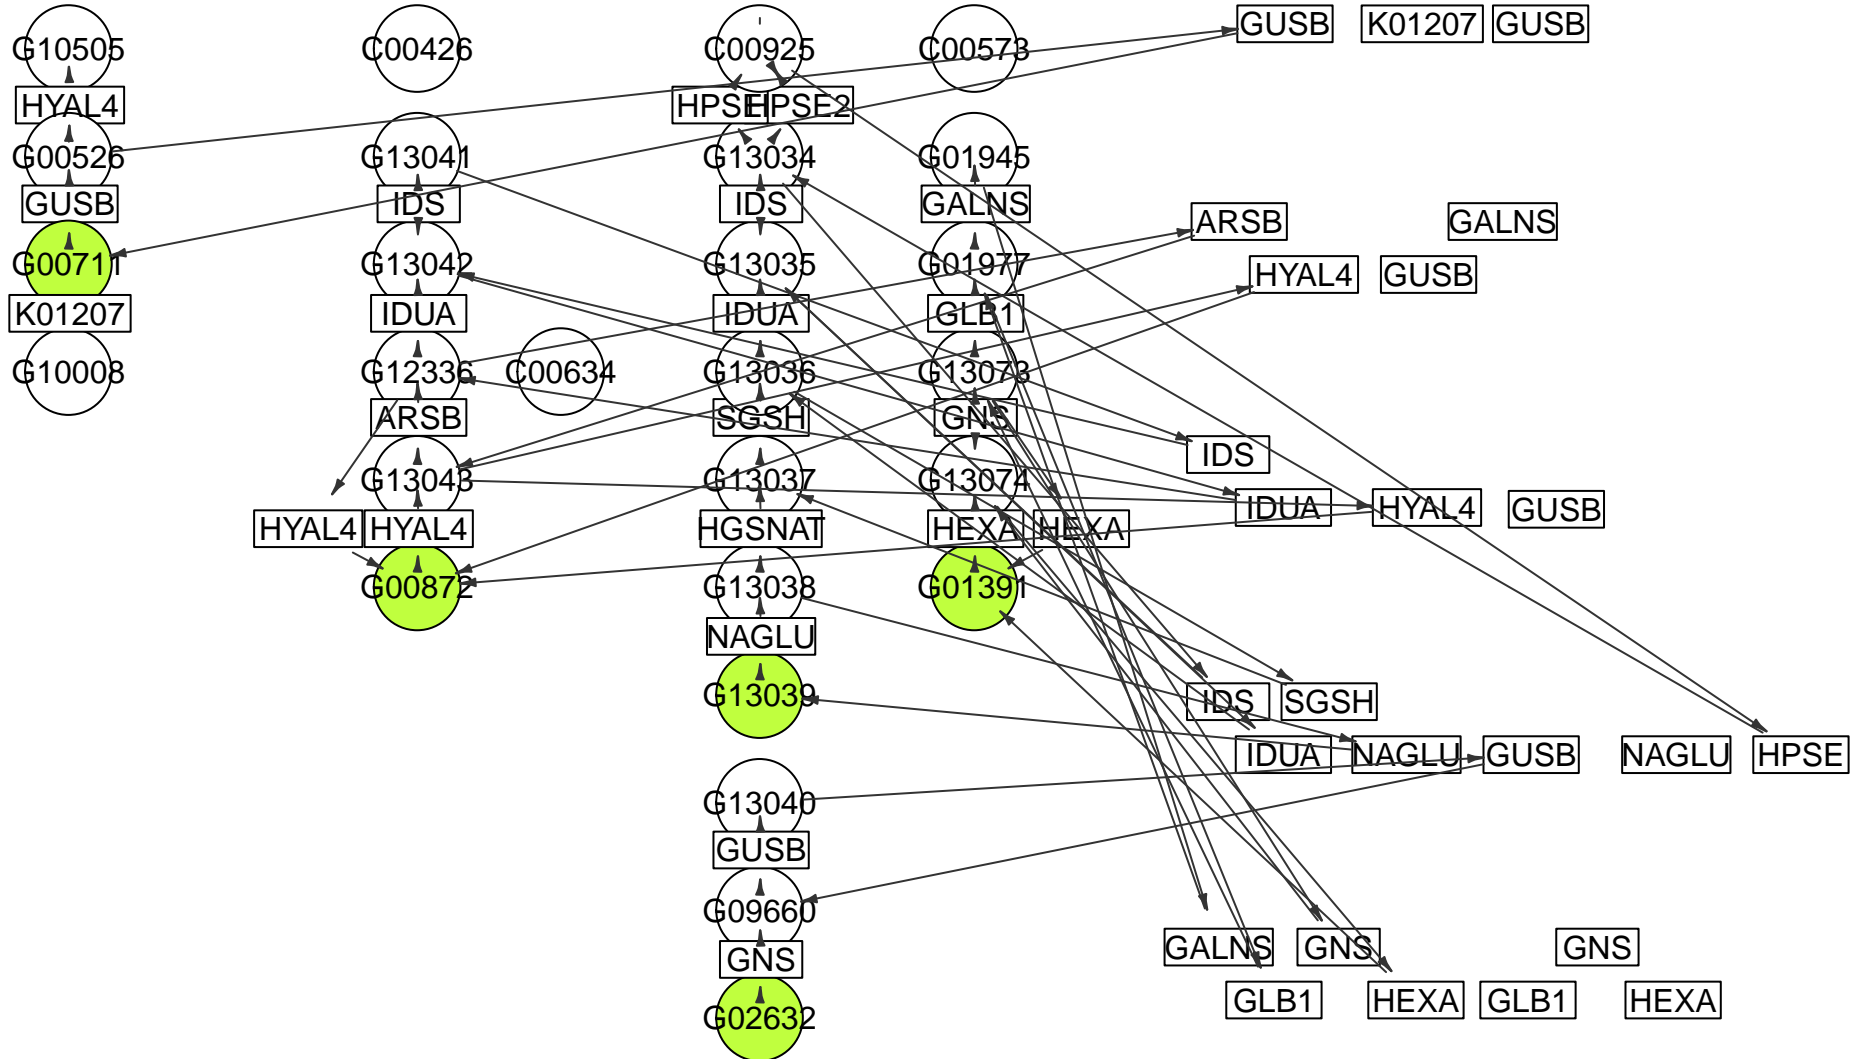

Glycosaminoglycan  
degradation  
(genes with data)

Glycosaminoglycan synthesis -  
sulfate / dermatan sulfate / heparin  
Glycosaminoglycan synthesis -  
sulfate / heparin  
Glycosaminoglycan synthesis -  
sulfate / heparin

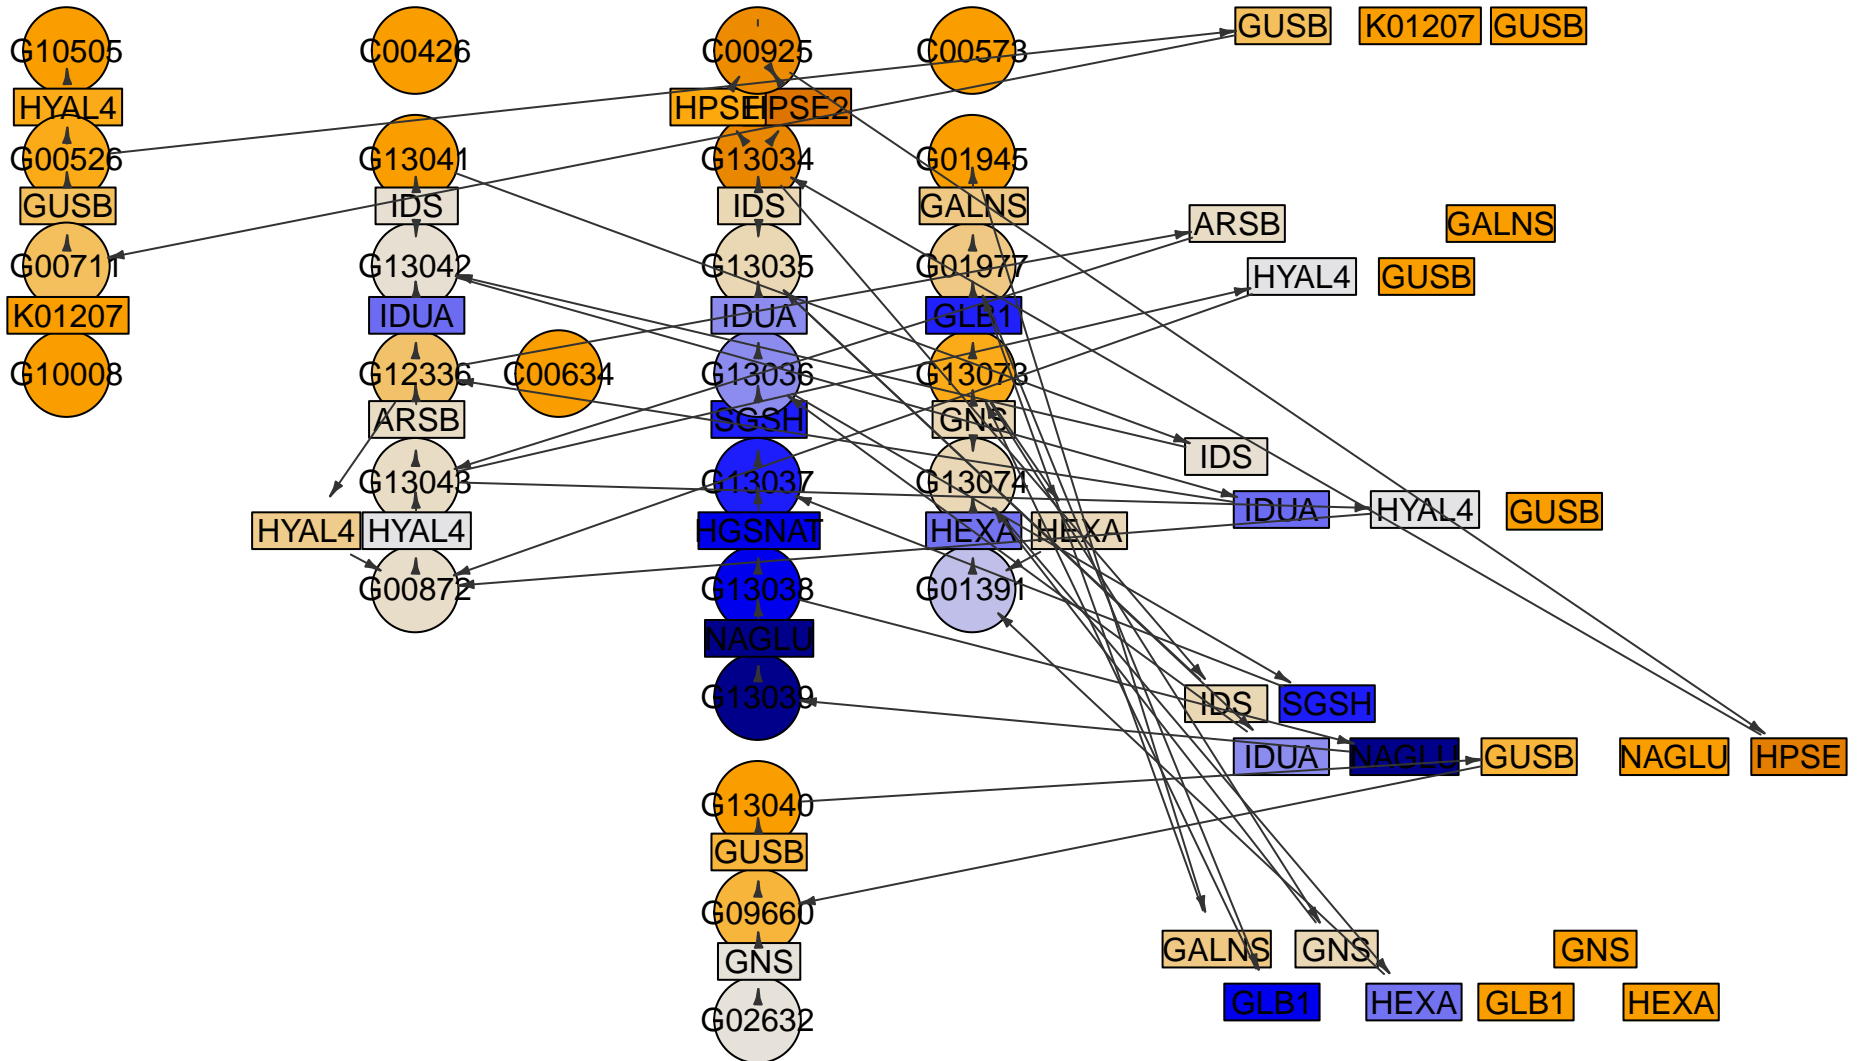

Glycosaminoglycan degradation (sink nodes)

Glycosaminoglycan synthesis - sulfate / dermatan sulfate / heparin sulfate / heparan keratan sulfate

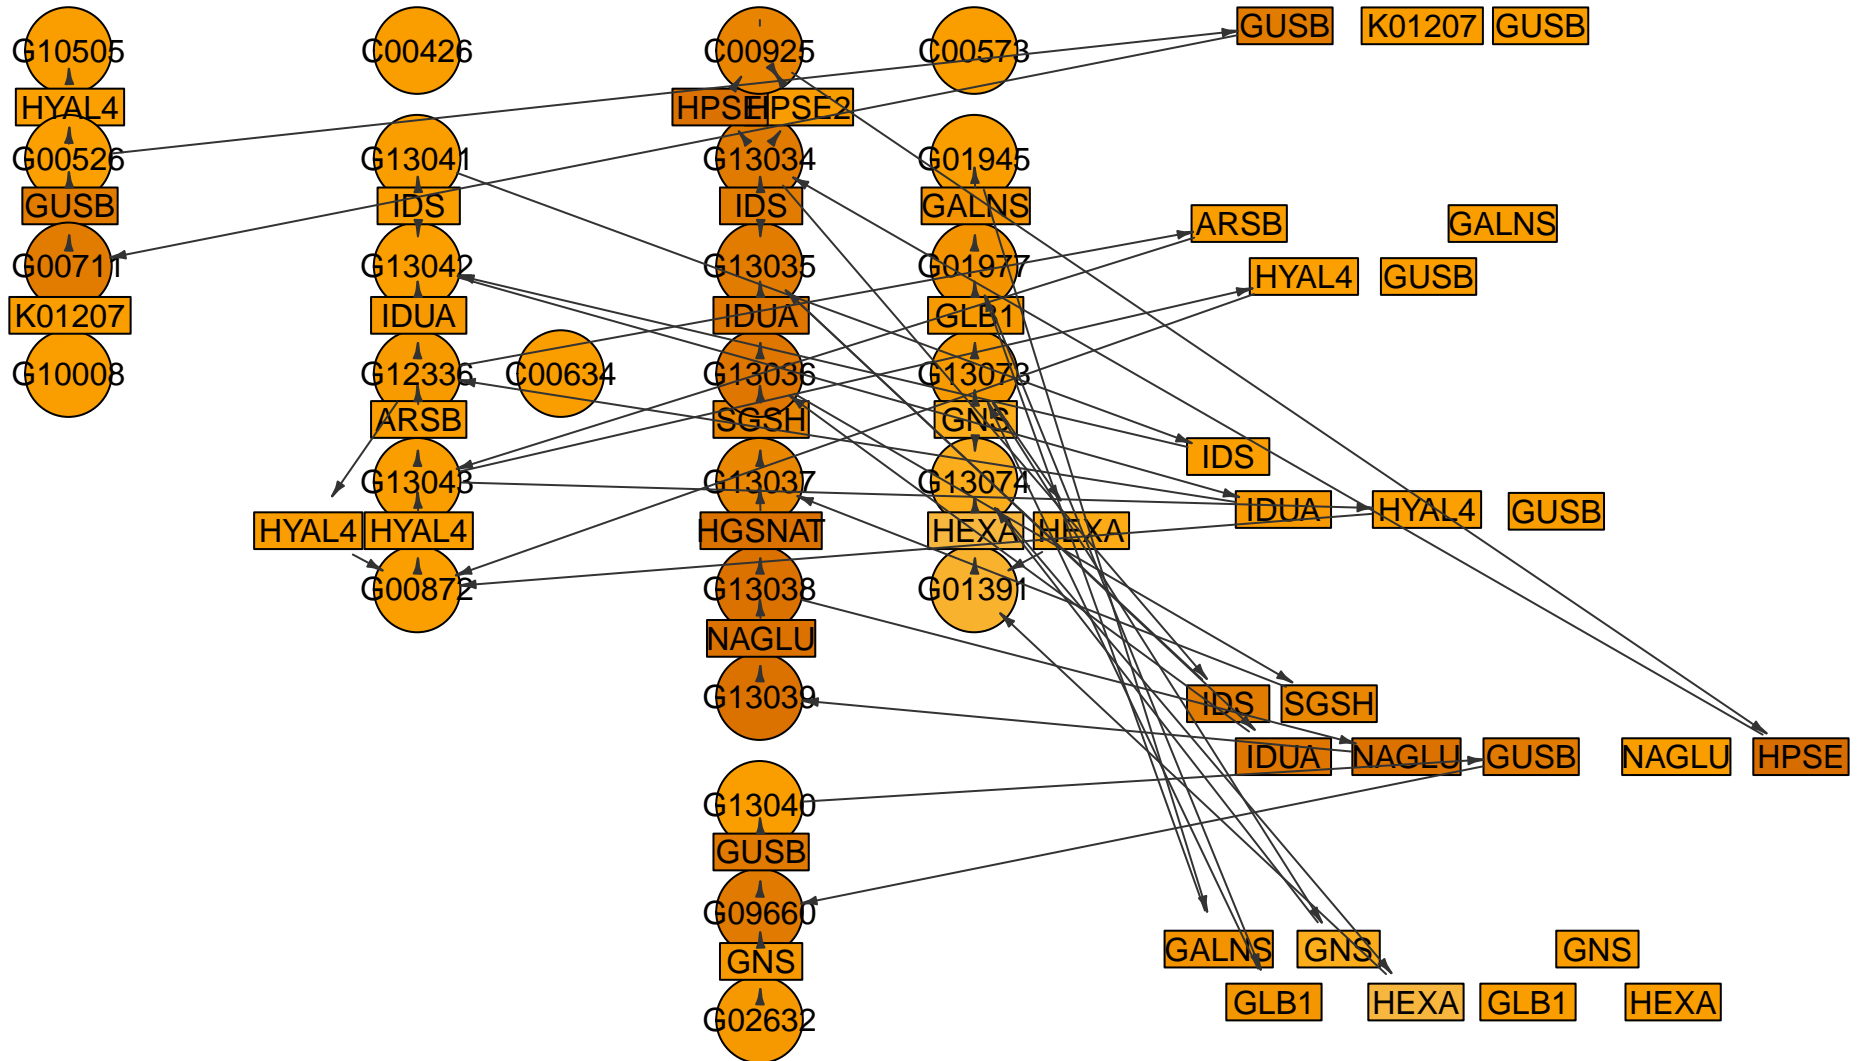

Glycosaminoglycan  
degradation  
mBL

Glycosaminoglycan biosynthesis –  
sulfate / dermatansulfate / heparin  
sulfate / heparan  
keratan sulfate

Glycosaminoglycan  
degradation  
intermediate

Glycosaminoglycan biosynthesis - heparan sulfate / dermatan sulfate / heparin keratan sulfate

Glycosaminoglycan  
degradation  
non-mBL

Glycosaminoglycan biosynthesis -  
glycosaminoglycan biosynthesis -  
sulfate / dermatansulfate / heparin  
sulfate / heparan sulfate / keratan sulfate
